

Instructor's Worksheet: For pages 58, 59 and 60 **TRANSPORTATION**

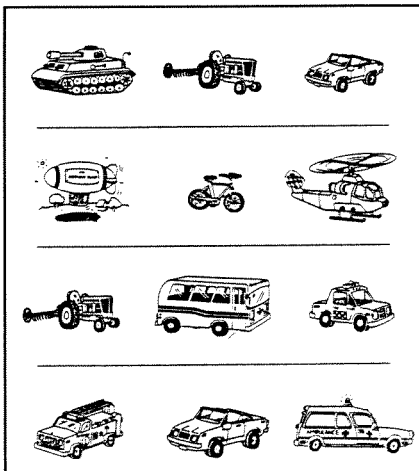

Directions: The instructor should make sure that each student is using the worksheet that corresponds to each page of directions. The directions are to be read aloud to the students, allowing them adequate time to complete their work.

Page 58: Read these directions aloud to the students.

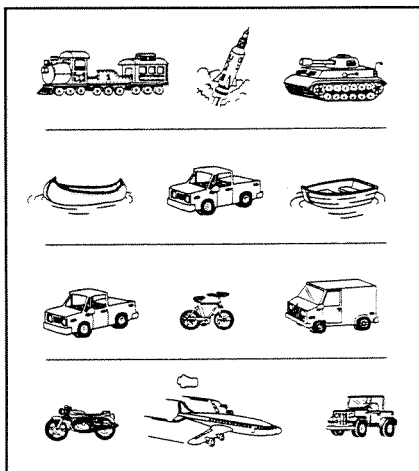

1. Put a red circle around all the things that can be used on water.
2. Find all the things that fly in the air. Color them blue.
3. Put a blue "X" on the things that move on treads or tracks.
4. Put two green dots on all the things that do not have a motor.
5. Underline all the things that have windshields.

Page 59: Read these directions aloud to the students.

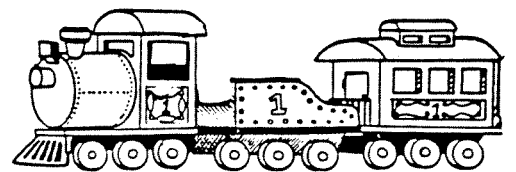

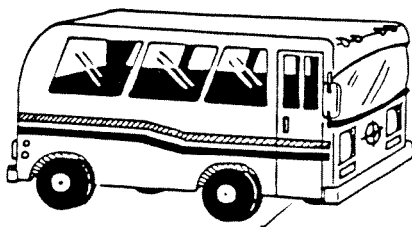

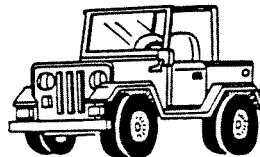

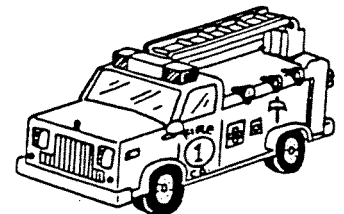

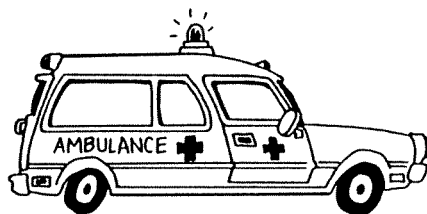

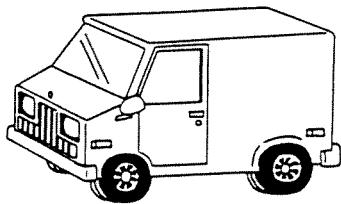

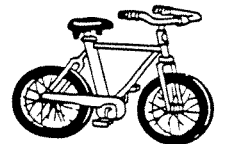

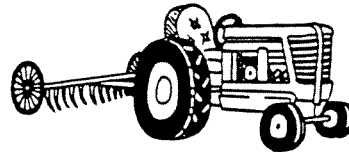

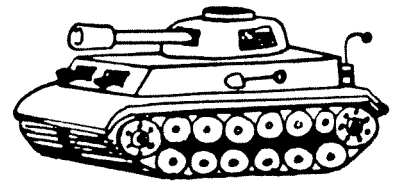

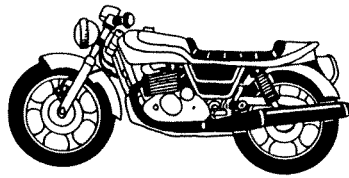

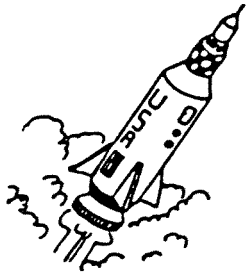

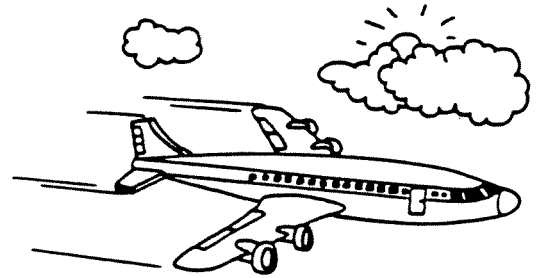

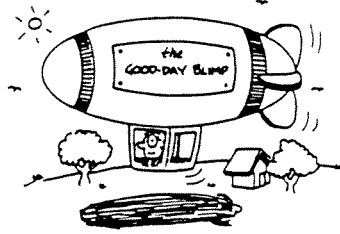

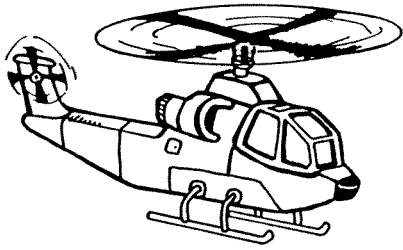

1. A person can travel about on all of these. Circle the two that would not be used on a super highway.
2. You can move from place to place in all of these. Circle the ones that move through the air.
3. All of these are used when going from one place to another. Circle the two that people usually pay to ride.
4. All of these have motors and wheels. Circle the two that have sirens.

Page 60: Read these directions aloud to the students.

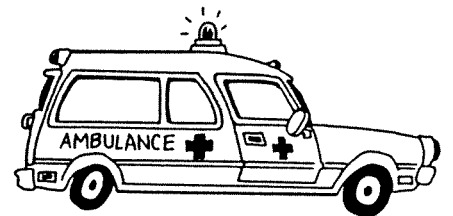

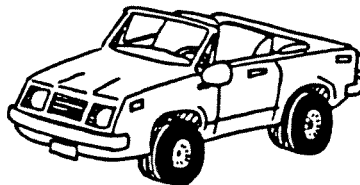

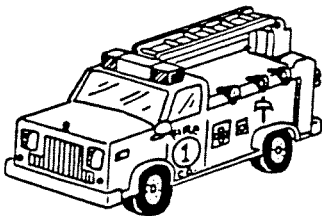

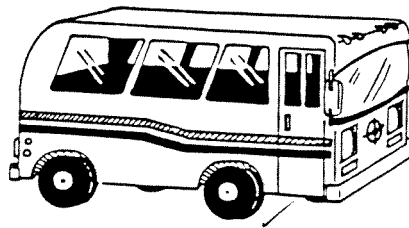

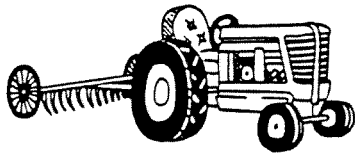

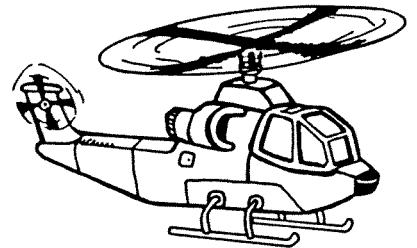

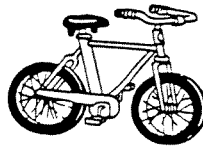

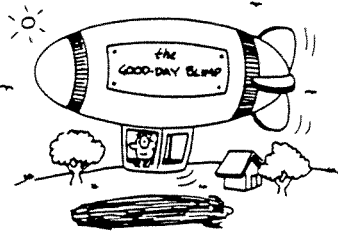

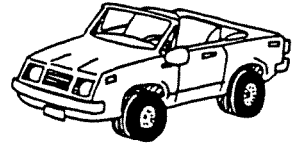

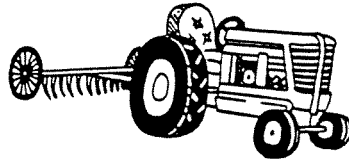

1. Not all vehicles have four wheels and travel on roads. Cross out the one that doesn't travel on tracks or ground.
2. A person can travel by road, water or air. Cross out the one that doesn't travel on water.
3. Some vehicles are used in jobs. Cross out the one that isn't used for hauling.
4. People travel in all kinds of weather. Cross out the one that would keep you dry when you travel in the rain.
